

Support Oregon Interfaith Power & Light and PGE Renewable Energy at the same time!

Sign up for PGE renewable energy option through Oregon Interfaith Power & Light (OIPL), and OIPL will receive a \$20 donation!

Did you know that you have the opportunity to purchase 100 percent renewable energy through PGE's renewable energy program? When you make a choice for renewable energy, you help create a clean energy future by simply paying your monthly electricity bill, AND signing up for a PGE renewable option will also help OIPL raise money. That's because OIPL will receive a \$20 donation for each household or small business that signs up for renewable energy on behalf of OIPL. For congregations that undertake a concerted sign-up campaign, OIPL will split the donation. (The customer must stay enrolled in the program for a minimum of three months for the donation to OIPL to apply.)

To enroll, simply choose a PGE renewable option and e-mail your choice (Green Source or Clean Wind), as well as your name, address and phone number to oipl@emoregon.org. Your choices are described below.

Renewable Power Options for PGE's Residential and Small Business Customers

Green SourceSM is based on matching 100 percent of your actual energy use with renewable power; with **Clean WindSM** you purchase small units of renewable energy for a set fee.

With the Green Source and Clean Wind options, you are billed at your current Basic Service or Time of Use rate, and you pay an additional charge for the renewable option you choose. No matter which option you select, you will continue to receive the same reliable PGE electricity service. Click on the link below to view a table that explains the features and benefits of each option.
